By Ryan Laugallis Translation programs and books are a fantastic way to bridge language gaps and a great resource for people across the globe. Many ways exist to translate words or text, but Web-based translation programs are highly accessible and often free. Google offers a simple yet robust translation program capable of translations in 57 languages and includes a specialized "Language Detector," so you don't even need to enter the language from which you are translating. Open your Internet browser and go to Google Translate. Type or paste the text you would like translated into the translation text box. Click on the "Translate Into" drop-down menu and select English. Click on the "Translate From" drop-down menu and select German. Click on on the "Translate" button. Your translated text will appear below. Image: Busakorn Pongparnit/Moment/Gettyimages French is the language of love, but we don't love it so much when we're learning it. As good as this beautiful tongue sounds, it has so many rules that most of us tend to give up just after learning how to say our names. But as with all the most popularly spoken language of the world, there are certain things that we need to know how to say, especially if we're traveling to the country, have friends or family from there or if we're just curious about the language itself. And we want to test just how much you know about some common French phrases in this quiz. So we'll give you the French phrase and ask you what it means. It'll be up to you to rack your brain for any bit of French that it has and apply it to our questions. You know names have something to do with apples (or is it appelle?) and merci always deals with being thankful. If you can handle each of our questions like this and choose the correct answer each time, we'll be thoroughly impressed. Can you really translate some of the most common French sayings? The reason may be due to many phrases and terms that have entered the English language over the centuries from France, Spain, Germany, and many other countries. For example, there are quite a few French words commonly used today in both the French and English languages that are used interchangeably. So much so, that one might say French phrases have entered every aspect of our life from movies, (film noir, cinéma vérité) to fashion, (avant-garde and haute couture) to relationships (femme fatale and ménage à trois). But most especially, our cuisine (bon appétit, soup du jour, and crème brûlée.)However, if you think by answering this quiz there may occur a faux pas (false step), not to worry, sans faire rien (it doesn't matter) you'll relish the Joie de vivre (a feeling of exuberance) when you tell others of your high score. They will think you have a special Je ne sais quoi (a positive, indescribable characteristic or literally, 'I know not what.') But don't take our word for it. Grab a café au lait and a croissant and find out how accurately you grasp the French language. Start the quiz now.Merci beaucoup.
